

Annual Camp happened, a week to remember!

After a time of preparations, the TFC annual camp finally took place during the first week of August, attended by 320 students; the majority came from the Western Province, while one-third were from Kigali City. The event featured various activities predominantly talent showcases, worship, and religious teachings aimed at strengthening the faith of believers and encouraging them to share the Gospel with those who do not yet know Christ, whether at school or in their daily lives outside the classroom. The camp was highly impactful, resulting in about 21 individuals accepting Jesus; TFC staff subsequently established a follow-up plan to provide them with teachings that foster spiritual growth and a deeper knowledge of God.

TESTIMONY: AN ISLAMIST TEEN RECEIVED CHRIST JESUS

Angel Keza is 15 years old born in a Muslim family. After hearing about the camps organized by TFC she wanted to attend; she asked her parents for permission, which they granted, and she greatly enjoyed the time spent with others. She had such a wonderful experience at the camp that, then returning home, she wrote a letter to her parents asking for their permission to convert to Christianity.

My dear parents,

I struggled to find a way to tell you this, but please accept the truth of the matter.

Honestly, I no longer wish to be a Muslim; it simply does not resonate with who I am.

For some time, I have wanted to become a Christian but didn't know how to say it; through attending a Christian youth camp this summer has only strengthened this desire and I thank you so much for allowing me to be part of it and to pay the camp fee for me.

Now is the time to speak up, because worshiping in Muslim under the control of my parents isn't right for me; I want to worship in a place where I feel at ease and where my devotion comes truly from the heart.

I know this may not be what you wanted to hear, I am not yet old enough to be fully independent in my decisions, yet I am not a child; I know what I want and who I wish to become.

I had many questions before, but now I have a much clearer understanding. During the Christian Youth Camp, I experienced wonderful moments worshipping the God of Christians; I felt a deep closeness to Him, speaking to Him and feeling that He hears me, just as I hear Him.

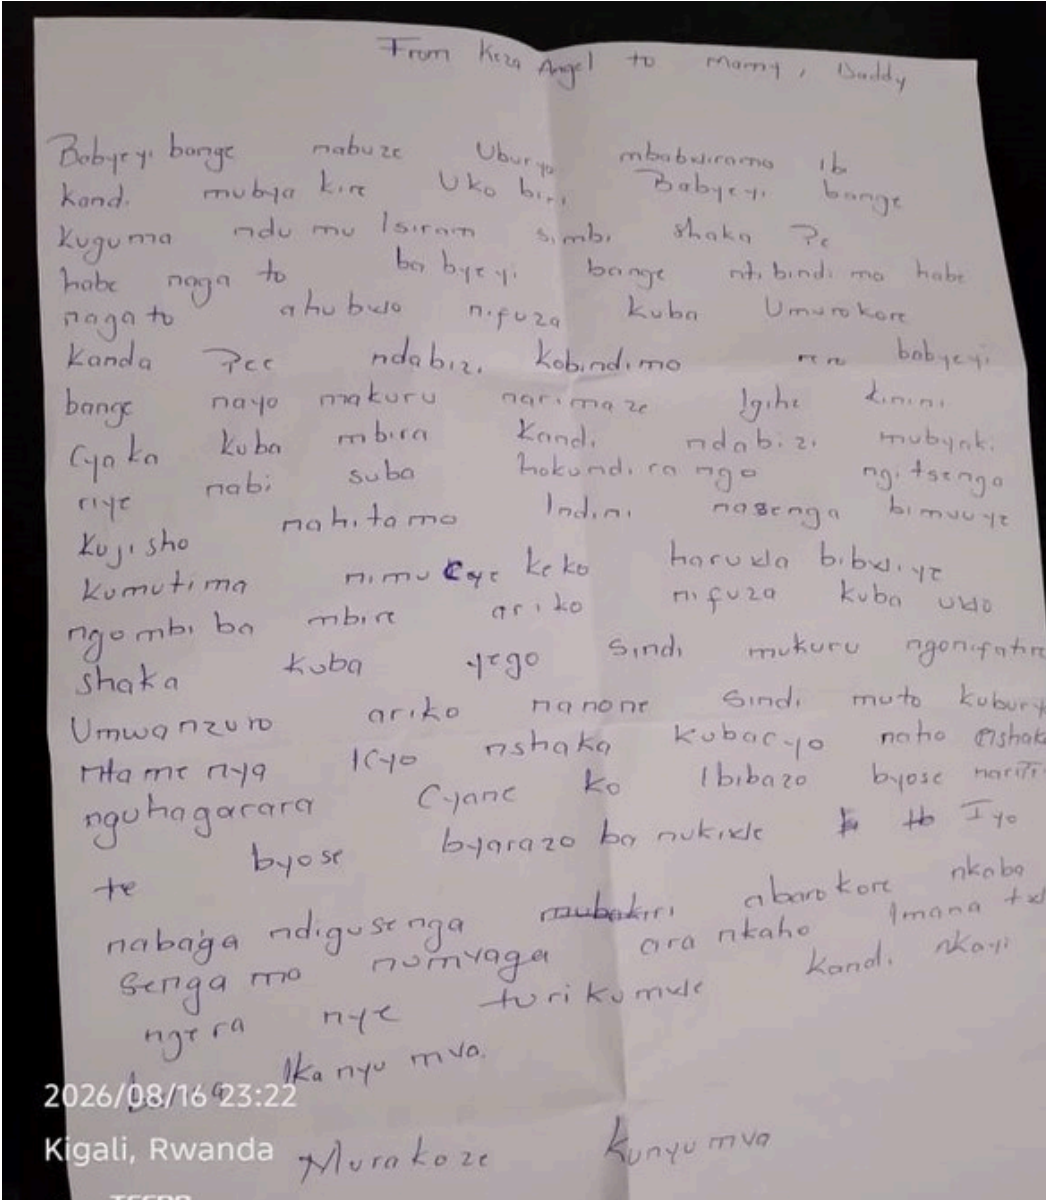

I beg you to understand this, and thank you very much.

I love you dearly, my parents.

All the Campers took time to Pray, to play and to learn

THE SPONSORSHIP PROGRAM

Regarding students already in the sponsorship program, those receiving tuition support they brought us their school reports upon returning from the holidays; overall, we found that 70% of them passed. We followed up on these students by contacting their families and preparing progress updates for their sponsors, informing them of how the students spent the holidays and expressing gratitude for the continued support of their education. Many of the students enjoyed good holidays, taking time to rest and assist their parents or guardians with small chores, Nowadays they are prepared to start the new school year in September.

SCHOOL OF DISCIPLESHIP

Since August, the leadership of the school of discipleship has decided that, before the lessons begin, there will be a time for praise and worship, by the help of the students leading the session.

After four weeks of that, we came to realize that some students possessed a talent for singing and for leading their peers before large audiences; we further nurtured these abilities, recognizing the need for students to learn how to speak in public while sharing the Word of God.

TABITHA

At the end of August, at Kigese, southern province of Rwanda, 19 students completed a seven-month training program at the Tabitha Project. The curriculum focuses on tailoring skills, integrated with general spiritual teachings and mentorship. The Tabitha Project is an initiative launched by TFC to teach entrepreneurship skills and foster self-sustainability; it primarily focuses on improving the lives of young women who became mothers while living with their parents, providing them with a sewing machine upon graduation to help them continue their personal development.

THE SPORT MINISTRY

At the end of August, the TFC football team continued its activities by visiting a player who had suffered an injury to his right leg; they prayed with him, offered words of encouragement, and instilled hope for his recovery and he has since returned to training. In another initiative, the players traveled to visit children living on the streets to share a message of hope with them. Additionally, the TFC Women's team defeated the Bumbogo girls' team 4-0 it was a good match full of enthusiasm.
